

Nguyen Thi Thu

Experienced UI/UX designer

Senior UI-UX designer with 10+ years of experience and expertise in website and app design. Participated in the design of many domestic projects, the Japanese market and gained the trust and satisfaction of customers. Looking to leverage my skills to deliver transformational improvements through creating user-centric design that delivers optimal performance for design websites and apps.

UI/UX Team Lead

Pionero • Full time
2023 -2026

- UI/UX Team Lead at Pionnero, responsible for defining UX/UI direction and overall design quality across outsourcing projects and internal products. Worked directly with company leadership to align product goals, establish design KPIs, and ensure design decisions supported business strategy.
- Led and mentored a team of 3–4 designers, including goal setting, task planning, design reviews, and team capability development. Contributed to defining workflows, UX/UI standards, and scalable design systems across products.
- Collaborated cross-functionally with Product, Engineering, Marketing, and Sales teams to translate business requirements into practical UX solutions. Acted as a key bridge between leadership, design, and development teams, participating in product-level decision making and prioritization.
